The Vice President of Instruction shall recommend the tuition and fees for all continuing education classes and all CEU credit with final approval of tuition and fees resting with the President.

Continuing Education tuition and fees are variable and depend upon:

1. Length of courses (in contact hours).
2. Number of meeting sessions.
3. Need for related study aids beyond normal text of reference.
4. Special services and materials in addition to instruction (i.e., uniforms, transportation, basic skills training, catering, pens, pencils, paper, etc.)
5. Travel associated with training.
6. Course development costs.
7. Instructional equipment rental or purchase.
8. Instructional salaries.
9. Course marketing costs.

Based on the statutory minimum tuition stated in Section 54.04 of the Texas Education Code, a minimum charge per contact hour for continuing education courses that generate state formula funding shall be assessed, with one exception. The exception is that zero tuition may be charged for continuing education courses when a minimum of 20 percent of the College's costs for facilities, instructor salary, equipment, and/or other expenses is covered by business, industry, or other local public or private clients. The College reserves the right to change, without notice, tuition, fees, other charges, and related requirements and regulations as necessitated by the College or by legislative action.
