

GALVESTON COLLEGE DEPARTMENT OF NURSING
ASSOCIATE DEGREE NURSING PROGRAM APPLICATION

Application Deadline February 15, 2019

Application Instructions: Please read **carefully** and follow **all** instructions:

1. If you are not currently a Galveston College student, you must apply for admission to Galveston College following the guidelines in the General Catalog. Along with the application to the College, submit Official Transcripts from all universities and colleges you have attended to the **Office of Admissions**, 4015 Avenue Q, Galveston, Texas 77550.

The Galveston College application is **separate** from the one required by the Associate Degree Nursing Program (ADN). Applicants will be considered for admission for the Nursing Department **after** students are admitted to Galveston College.

2. Submit the attached application for admission to the Department of Nursing in the Regents Hall of Galveston College by **February 15, 2019**. This application is formatted for download from the Nursing Department webpage and completion on your computer (except for your signature). Once completed, print, sign, and submit the application. Hard copy applications are also available in the Nursing Department.

The application for admission will be evaluated on the following basis:

- A. **Grade point average of 2.5 or > for science courses:** BIOL 2401, 2402 and 2421. Science and math courses must be within 5 years of program start (this includes the TSI). No grade less than a "C" is acceptable.
- B. **Grade point average of 2.5 or > for all prerequisite courses:** BIOL 2401, BIOL 2402, BIOL 2421, ENGL 1301 Health Assessment (RNSG 1215) and MATH 0304, 0308 or higher **OR** TSI 350 or above. No grade less than a "C" is acceptable.
- C. **Overall grade point average must be 2.7 All grades for the past ten years are part of the overall GPA.**
- D. TEAS Entrance Exam: Minimum of 65 cumulative score on the TEAS Exam. Visit www.atitesting.com for more information. Please note, the exam MUST be taken prior to the application deadline and may only be taken twice per admission period (Sept 15-Feb 15). Beginning September 15 2018 ALL APPLICANTS SHALL BE required to TAKE the NEW TEAS Exam.
- E. Admission criteria are listed on the Galveston College website in the nursing section and in the General Catalog.
- F. The number of applicants admitted to the Nursing Program is based on the faculty and space availability.

GALVESTON COLLEGE
DEPARTMENT OF NURSING
STANDARDS FOR NURSING STUDENTS

Responsibilities and standards in nursing practice are determined by the Texas Board of Nursing, national accreditation guidelines, and clinical agencies. Additionally, as described in various clinical evaluation tools and course guidelines, students **MUST BE** able to provide safe patient care.

Technical Standards for Nursing Practice: Nursing is a practice discipline and successful completion of the nursing program requires that students demonstrate ability to effectively and safely perform several essential skills. ALL students are assessed in practice labs and clinical practicums throughout the program to confirm adherence to the technical standards, with or without accommodations.

Intellectual Requirements: Critical thinking is an important part of clinical judgment needed to provide safe patient care. Students must be able to measure, calculate, reason, and quickly analyze information in order to apply complex information in the classroom and clinical settings.

Gross and Fine Motor Requirements: Nursing students must be able to provide general care (including preparing medications and administering treatment and completing patient assessments). For example, students must be able to perform basic life support (CPR), function in an emergency situation, and have the ability (within reasonable limits) to assist a patient in moving, such as from the chair to the bed. Must be able to lift 50 pounds. Must be able to see marking on syringes to be able to administer medications. Must be able to hear blood pressure, heart, lungs and bowel sounds.

Observation Skills: Student nurses must be able to observe patients accurately to assess their condition and perceived signs of disease and response to treatments through physical examination, including visual images, auditory information (patient voice, heart tones, bowel sounds, and lung sounds), and palpable changes in certain organs and tissues.

Communication Requirements: Nursing students must be able to communicate effectively with patients, staff, physicians, and family members, verbally and in a written format. Students must be able to process and accurately convey information about the patient's status to faculty, staff, and other healthcare providers in a timely manner.

Social and Behavioral Requirements: Student nurses must possess sufficient mental and emotional health to exercise good judgment, promptly complete assessments, and function in what can be a physically and emotionally demanding dynamic environment. Nursing students must be able to demonstrate compassion, empathy, and concern for others while maintaining a mature, sensitive, and effective relationship with patients, families and other professionals.
